# About Flowtork

---

Flowtork Technologies Corporation, is a Filipino owned company established in 2004 by a Filipino marketing professional, with technical know-how who has been trained to provide technical services to all the products that the company offers.

The company has been involved in the supply and installation of industrial instrumentation equipment to various industries in the Philippines. Throughout the years, the company has earned and continuously improved its excellent reputation by not only supplying world-class products, but also providing high quality customer service and on-time delivery. In order to cater to its growing list of clientele, Flowtork has continued to equip itself with more professional individuals and technically-skilled workforce. By having reliability, trustworthiness, respectability, and dependability, Flowtork envisions itself to remain in the forefront of product servicing for many years to come

# Our Vision

We will always endeavor to be one of the leaders in process instrumentation products in terms of continuous growth, profitability, and judicious utilization of our resources in pursuit of quality and innovation after-sales service.

Verily, to actively enjoin our peers in nation-building and ultimately contributing to the quality life for our workers and every Filipino.

## CORPORATE PRINCIPLE

To establish competitive-edge technology through improved process instrumentation facilities and use of well-trained force of professionals.

*Through this, we will ensure that you, our valued customer, shall achieve 100% satisfaction.*

# Our Mission

---

We shall continuously build a well-trained, competent, and customer oriented company while religiously following established standards without compromise and maintain a working force in an atmosphere that provides competitive financial package thus promoting opportunities for professional excellence.

In line with our core values of honesty, integrity, and collegiality, we make sure that our customers are provided with immediate and firsthand service before and after an order.

By choosing Flowtork, not only did you improve the quality and smoothness of your process system, you are also entitled to our continuous commitment towards after-sales support

## Bray International

Control Valves, Severe Service Ball Valves,  
Pneumatic Actuators

Bray has designed products that meet the stringent requirements of today's flow control industry. Bray has earned a reputation for excellence through creating products of superior value and quality.

Bray Resilient Seated and  
High Performance Butterfly Valves

VAAS Knife Gate Valves

Flowtek Control and  
Severe Service Ball Valves

PRINCIPAL PARTNERS

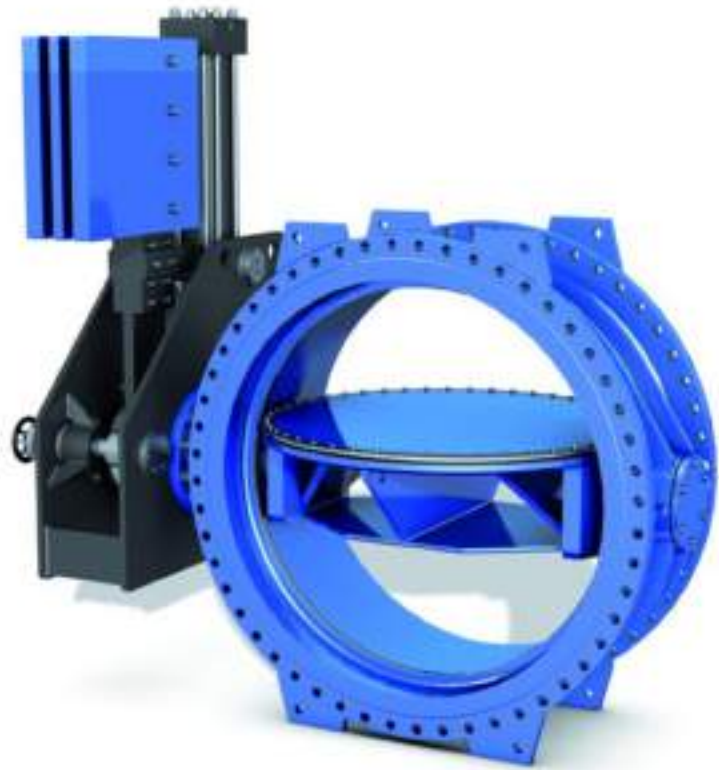

# VAG

[www.flowtork.com](http://www.flowtork.com)

## VAG Group

Hydro Valves and Mechanical Fittings

VAG valves are installed amongst others in barrages, dams, water works, drinking water supply networks and wastewater systems – wherever reliable closing and regulating mechanisms are indispensable.

VAG EKN Hydropower  
Butterfly Valves

VAG RIKO Plunger Valves

VAG Mechanical Fittings

PRINCIPAL PARTNERS
